

Midas Strip 3092

WATER EMULSIFIABLE PAINT
REMOVER FOR FLOOR
CLEANING & EXTERIOR TOTE
CLEANING

Description

Paint frequently is spilled and tracked during manufacture and handling. These spills are usually removed by a mixture of flammable solvents which are toxic by inhalation. Midas-Strip 3092 removes paint marks or spills safely without noxious odors. Midas Strip 3092 easily removes Paint and Ink stencils and it replaces low flash solvent commonly used for Exterior Tote cleaning. Non methylene chloride Fast acting Dries quickly Easy to apply Non-flammable Radically reduced V.O.C. emissions

Recommended Application

- 1 Midas-Strip 3092 is mixed 50% by volume with water.
- 2 Mop on floor then let set, mop up and rinse with water.

Benefits

Superior cleaning ability

No phenols, chlorinated or flammable solvents

Low Volatility, reduced V.O.C.'s

Removes most coatings first time

Minimal airborne health hazard

Low vapor pressure reduces V.O.C.s, Environmentally Friendly

Emulsifies with water, simple to use.

Less slippery than low V.O.C. solvents.

Economical to use.

High employee acceptance, no offensive odor.

Health & Safety

Refer to SDS for complete health and safety information.
