

AutoGeneral® Aluminum Cleaner 2440

Concentrated, Low pH Vehicle Wash

TYPICAL PROPERTIES

- Appearance and odor = Clear, green liquid
- pH = 9 (concentrate)
- VOC (EPA 24) = Not established
- Density = 8.92 lbs/gal
- Flashpoint = None

SHIPPING

AutoGeneral® Aluminum Cleaner 2440 is shipped in 1 gallon plastic jugs, 5 gallon plastic pails, and 55 gallon closed head plastic drums.

Description

AutoGeneral® Aluminum Cleaner 2440 is a concentrated, low pH, liquid formulation that combines the cleaning ability of biodegradable detergents, environmentally friendly sequestering agents and grease cutting alkalis. Designed with “PHOSPHATE FREE” chemistry, this water dilutable concentrate can be used to wash trains, trucks and trailers, utility trucks, aircraft, ships and boats, agricultural equipment, buses, RV’s, cars and vans. It is safe on all common surfaces when used according to directions.

Recommended Application

- 1 AutoGeneral® Aluminum Cleaner 2440 is mixed 1 part to 15 parts water, depending on soil complexity.
- 2 This mixture is then sprayed as a light mist onto the surface to be cleaned. Allow a dwell time of 5 to 10 minutes, depending on soil complexity.
- 3 Rinse with cold soft to medium hard water at 4 gpm at 2000 - 3000 psi.

Benefits

- Water based
- Widespread utility
- Concentrated formula
- Low VOC

Material Compatibility

Avoid strong oxidizing agents (i.e. bleach), strong reducing agents and strong acids.

Health & Safety
