

AutoGeneral® Anti Squeak

Interior Automotive Lubricant

TYPICAL PROPERTIES

- Appearance and odor = Soft, white paste
- pH = NA
- VOC (EPA 24) = 0.03 lbs/gal
- Density = 7.4 lbs/gal
- Flashpoint = >220 °F

SHIPPING

AutoGeneral® Anti Squeak is shipped in 1 gallon plastic jugs, 5 gallon plastic pails, and 55 gallon closed head plastic drums.

Description

AutoGeneral® Anti Squeak is a blend of high and low molecular weight hydrocarbons, waxes, and mineral oils. It is used to eliminate “squeaks” on interior automotive panels, including vinyl, metal, glass, and an assortment of polymers.

Recommended Application

1

AutoGeneral® Anti Squeak is used as received. It is applied as a thin film between two contacting surfaces to prevent squeaks in interiors of automobiles. It is easily applied with a cloth, sponge, or brush. The recommended application rate is 15 mg of the compound per square inch of contacting surface. Excess amounts of AutoGeneral® Anti Squeak should be wiped off with a clean, dry cloth. Please refer to the MSDS for proper safety instructions.
