Water Based Tire Dressing

Description

AutoGeneral® Tire Shine Water Based is water-based, solvent-free, low VOC and provides great shine and gloss to tires and vinyl. When applied properly, it helps prevent cracking, fading, premature aging and brings out a beautiful, deep shine with a nongreasy finish. Being a water-based product, slinging does not occur with AutoGeneral® Tire Shine Water Based nor does it contain any harsh solvents that will harm the tire itself.

Recommended Application

1

AutoGeneral® Tire Shine Water Based is used as received. Apply to a clean cloth and spread evenly, or spray directly onto surface. Wipe off excess. Apply as needed to maintain surface appearance and protection. Please refer to the MSDS for proper safety instructions.

AutoGeneral® Tire Shine Water Based is used as received. Apply to a clean cloth and spread evenly, or spray directly onto surface. Wipe off excess. Apply as needed to maintain surface appearance and protection. Please refer to the MSDS for proper safety instructions.

Benefits

- Water based
- Widespread utility
- Low VOC
- No slinging

Material Compatibility

No incompatibilities known.
