

Product Information

Description - DeckGeneral® Deck Stripper 4021 is unique in that it takes off both oil and latex finishes. DeckGeneral® Deck Stripper 4021 is powerful enough to remove clear and semi-transparent stains, film forming clear coatings, and water sealers. It also works on deteriorated varnishes and polyurethanes and removes damaged and discolored wood fibers, mildew and water stains as well.

Sub Title - Alkaline Deck Stripper

Typical Properties - • Appearance and odor = Clear, pink, thick liquid • pH = 13 • VOC (EPA 24) = 0.6 lbs/gal • Density = 8.8 lbs/gal • Flashpoint = None

Benefits - • Water based • Widespread utility • Low VOC

Recommended Application - Always pretest an area to be cleaned to insure compatibility with the cleaner. DeckGeneral® Deck Stripper 4021 can be used as received or diluted 1:1 with water, depending upon the nature and severity of the soils to be removed. When diluting with water always add the product to water to avoid splashing of the alkaline solution. Spray or brush the cleaner on the surface to be cleaned and agitate with a deck brush. Allow 15 to 20 minutes for stripper to react with the surface. When finished, use a power washer to remove the stripper and the coating. Follow up with a DeckGeneral® Wood Brightener to neutralize any residual stripper and to brighten the deck. Please refer to the MSDS for proper safety instructions.

Material Compatibility - Avoid strong oxidizing agents (i.e. bleach), strong acids and soft metals such as aluminum.

Shipping - DeckGeneral® Deck Stripper 4021 is shipped in 5-gallon plastic pails.
