DeckGeneral® Hose End Deck Stripper 5753 is shipped in 1 gallon plastic jugs, 5 gallons plastic pails, and 55 gallon closed head plastic drums.

DeckGeneral® Hose End Deck Stripper 5753

Alkaline Deck Stripper for Hose End Sprayers

Description

DeckGeneral® Hose End Deck Stripper 5753 is a version of DeckGeneral® Deck Stripper 4021 that has been formulated for use with a hose end sprayer. It is powerful enough to remove clear and semi-transparent stains, film forming clear coatings, and water sealers. It also works on deteriorated varnishes and polyurethanes and removes damaged and discolored wood fibers, mildew and water stains.

Recommended Application

- 1 Always pretest an area to be cleaned to insure compatibility with the cleaner.
- 2 DeckGeneral® Hose End Deck Stripper 5753 is used as received.
- 3 Attach the spray bottle to the end of a hose, turn on the water, and spray the cleaner on the surface to be cleaned. Agitation from a brush may facilitate better cleaning of heavily stained areas.
- 4 Allow 15 to 20 minutes for stripper to react with the surface.
- 5 When finished, use a power washer to remove the stripper and the coating. Follow up with a DeckGeneral® Wood Brightener to neutralize any residual stripper and to brighten the deck.

Benefits

- Water based
- Widespread utility
- Zero VOC
- Ready to use for Hose End applications

Material Compatibility

Avoid strong oxidizing agents (i.e. bleach), strong reducing agents, strong bases (i.e. ammonia) and soft metals, such as aluminum.

Health & Safety

Please refer to SDS for complete health and safety information.
