

# PaverGeneral® Zonacote

Water Based Oil Repellent

## TYPICAL PROPERTIES

- Appearance and odor = Clear, pale yellow liquid
- pH = 3.5 - 4.5
- VOC (EPA 24) = 0.015 lbs/gal
- Density = 8.3 lbs/gal
- Flashpoint = None

## SHIPPING

PaverGeneral® Zonacote is shipped in 1 gallon plastic jugs, 5 gallon plastic pails, and 55 gallon closed head plastic drum.

## Description

PaverGeneral® Zonacote is a water based sealer that imparts a natural finish to paving bricks and stones, while at the same time providing superior oil repellency.

## Recommended Application

1

The surface should be free of standing water and surface dirt. All nearby vegetation and any material that is not to be treated should be protected. For previously sealed surfaces, apply one heavy coat. For unsealed surfaces, apply two coats. The first coat should be a light coating that will dry in a short time, followed by a second heavy coat. Methods of application include airless sprayer, roller and brush. When a brush or roller is used, repeat application until the surface remains moist for a few minutes. If an airless sprayer is used, apply the material until the substrate is thoroughly saturated. Please refer to the MSDS for proper safety instructions.
