CarpetGeneral Carpet Bonnet Cleaner 5857

Carpet Bonnet Cleaner

Description

Bonnet cleaning is a maintenance cleaning technique used in commercial cleaning situations. It is a low-moisture technique. Bonnet cleaning only cleans the top fibers- it is surface cleaning. It does not clean deep down, like shampooing or extraction cleaning.

Recommended Application

- 1 Always pretest an area to be cleaned to insure compatibility with the cleaner.
- 2 Thoroughly vacuum carpet.
- 3 **Bonnet Cleaning Method:**
Dilute 2-4 ounces of CarpetGeneral Carpet Bonnet Cleaner 5857 in 1 gallon of water. Work in sections of approximately 100 square feet. Use pump sprayer to evenly apply solution to the area. With a rotary dry bonnet and drive pad, buff area to extract soil and solution into bonnet.
- 4 **Spray & Brush Technique:**
Dilute 2-4 ounces of CarpetGeneral Carpet Bonnet Cleaner 5857 in 1 gallon of water. Evenly spray carpet with solution or apply with rotary shampoo machine. Brush carpet using floor machine with buffing pad or nylon carpet brush.
- 5 **Wet Bonnet:**
Submerge cotton bonnet in CarpetGeneral Carpet Bonnet Cleaner 5857. Wring well and buff carpet in overlapping pattern. Rinse and wring bonnet frequently.
- 6 Thoroughly vacuum carpet.

Benefits

- Speed: Carpet dries quick, allowing for businesses to remain operational.
- Ease: Equipment and supplies are easy to acquire and maneuver.
- Inexpensive: Equipment and supply costs are low and doesn't require highly skilled labor.
