

Floor Paint Strip 2500

Heavy Duty Gel Paint Stripper

TYPICAL PROPERTIES

Appearance: Clear liquid
Odor: Characteristic
Flash Point: 108°F

Description

Floor Paint Strip 2500 is engineered to remove various paints and/or surface sealers, including waterproofing surface sealers and floor tile adhesives (mastic). It also cleans the pores in concrete surfaces - important before deep-sealing concrete. This product can be used on many floor finishes. Floor Paint Strip 2500 is a solvent borne, non-aerosol paint remover.

Benefits

- Non methylene chloride
- Fast-acting
- Easy to apply on vertical surfaces
- Safe for use on steel or aluminum surfaces
- Effective on water borne & solvent base paints & resins

Health & Safety

Wear gloves and mask when using. Please refer to SDS for complete health and safety information.

Coverage

Coverage may vary widely depending on the floor finish, number of layers, and the surface. 1 gallon will usually strip 200 to 250 square feet of concrete.
