- Specific Gravity: 0.89 - 0.91
- Max. Operating Temperature: 100°F

SHIPPING

Booth Grease 4550 Gold is shipped in 1 gallon metal cans, 5 gallon metal pails, or 55 gallon open head metal drums.

Description

GOLD GREASE 4550 has been formulated for application to baffles, back sections, stacks, underbooth areas and other locations where a greasy coating is desired to prevent adhesion of paint overspray. It is water resistant and has good adhesion to vertical surfaces.

Recommended Application

1

GOLD GREASE 4550 can be applied by 30:1 airless spray, brush, roll or trowel.

Benefits

- Facilitates easier future clean-outs
- Easily removed by scraping
- Easy application

Health & Safety
